Scholars Archive is a digital repository for the UAlbany community to collect and share scholarly work in a centralized location where it will be preserved and stored securely.

**WOULD YOU LIKE TO...**

- Showcase your projects and research?
- Meet open access mandates for grant funded projects?
- Gain insight into the impact and reach of your research with unique reports?

**Submit to Scholars Archive!**

**WAYS TO SUBMIT WORK**

- Compose a short email giving permission to post your research. We will seek copyright permissions to determine which items can be included and work with you to obtain and post your materials.
- Attach your up-to-date CV to the email and send to scholarsarchive@albany.edu
- Create an account and self submit: scholarsarchive.library.albany.edu

**QUESTIONS? PREPARING TO SUBMIT?**

Scholars Archive is a service of the University Libraries

A SHOWCASE FOR FACULTY WORK

scholarsarchive.library.albany.edu
PUBLISHED RESEARCH + RESEARCH MATERIALS

Expand reach and visibility for the full spectrum of your work.

You can grow the web presence of your scholarly work; content is fully indexed, searchable, and crawled by search engines like Google and Google Scholar. Scholars Archive also has leading analytic tools that let you see how widely your work is being discovered and how readership changes over time.

DIGITAL HUMANITIES + SCHOLARLY ACTIVITIES

Support faculty's innovative work across multimedia formats and other digital projects.

It can be challenging to share your most engaging work because of hybrid formats and multimedia requirements. Scholars Archive supports audio, video, images and curated digital collections to help bring your research to life.

WHY CONTRIBUTE?

TEACHING + LEARNING MATERIALS

Open educational resources, student-led journals, and class research projects.

Teaching materials are an important component of professors' academic legacies. With Scholars Archive, that legacy is preserved in a user friendly, discoverable place.

RESEARCH DATA + GRANTS

Meet funder mandates, increase transparency, and manage grants online.

If you are looking for a way to meet funder requirements, measure impact and preserve digital research data, Scholars Archive provides a long-term solution.

You can submit...

- Journal articles
- Conference materials
- Educational materials
- Technical reports
- Theses/dissertations
- Books or book chapters
- Data sets
- Working papers
- Image, video and audio files
